1. Claims 1, 8, 11, 15 & 17-20 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest: in claim 1, an optical disk device comprising a spindle driver IC internally including a monitor circuit for monitoring a junction temperature of a chip of the spindle driver IC; a comparison circuit for comparing an output of the monitor circuit with an arbitrary set temperature and outputting a temperature flag as a comparison result; and a CPU for controlling the operation of the optical disk device and monitoring the temperature flag outputted from the comparison circuit, the CPU performing a control so as to continue driving of the optical disk device when the junction temperature is lower than the arbitrary set temperature, and performing a control so as to suppress heat generation of the spindle driver IC when the junction temperature of the chip of the spindle driver IC is equal to or higher than the arbitrary set temperature by not having the spindle driver IC perform a forced acceleration or a forced deceleration of the optical disk for an arbitrary period of time.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
